

Bingo bagger

Benefits and Advantages

- The Bingo Bagger is unique in that it is the only bagger on the market that can automatically vacuum or gas flush at the sealing station.
- Stainless steel construction using 304 S/S, standard food grade for all contact parts.
- Uses pre-made wicketed bags, will automatically open, fill, and seal.
- Both polyethylene and laminate materials can be run on the Bingo Bagger.
- Wide bag size specs versatility.
- PLC operated top loading horizontal bagger is compact, mobile, and very user friendly.
- The Bingo Bagger uses horizontal seal jaws as opposed to a traditional rotary heat sealer, this is not only reduces the length of the machine but cost as well.

Bingo bagger
