

**WEILER® TOTAL SYSTEMS
COMPLETELY INTEGRATED SYSTEMS.
STAND ALONE QUALITY.**

GET THE EDGE WITH OPTILINE™ SYSTEM DESIGN.

BEEHIVE® FORMAX® WEILER® YOUNG

THE PROVISUR™ FAMILY OF PROVEN BRANDS

MAKE MORE OF YOUR LINE RUN WITH WEILER® HIGH-PERFORMANCE

What's better than having Weiler® equipment on your line? Having Weiler® equipment make up even more of it.

Once you experience the performance and reliability of Weiler® equipment, you can't help but imagine what your bottom line would look like with Weiler® equipment running more of your processing line. That's why more and more of the biggest names in food are moving to Weiler® Total Systems. From grinders and mixer/grinders, to mixers and material handling equipment, Weiler® Total Systems are built to last under the most demanding environments, and designed to work together delivering greater performance, higher efficiency and the most premium end product possible.

BEST IN CLASS. BEST IN VALUE.

Processors who buy Weiler® equipment understand that total cost of ownership means more than just purchase price. With rugged construction and design efficiencies that increase your uptime in terms of assembly, maintenance and sanitation, Weiler® equipment isn't just the highest-performing equipment in the industry. It makes the most sense for your bottom line as well.

THE FUTURE OF LINE OPTIMIZATION IS HERE OUR SECRET INGREDIENT? OPTILINE™ SYSTEM DESIGN

With our proprietary Optiline™ System Design, we can simulate your production process, analyze equipment options and create a customized and comprehensive food processing system that optimizes your throughput at every step on your line.

That means:

- Greater efficiency through the precise optimization of your space
- Reduced operating costs achieved through the rugged durability and superior design of Weiler® equipment
- Precise system integration streamlines production efficiencies throughout the line
- Superior product quality through best-in-class equipment that delivers an uncompromised end product

DESIGN YOUR PERFECT SYSTEM FOR MAXIMUM PRODUCTIVITY

Our world-class engineers understand your application and turn your specifications into completely integrated systems optimizing your floor space and maximizing your performance. Whether you require a small-, medium- or large-capacity system, with Weiler® Total Systems, every piece of equipment works together in order to optimize efficiencies, uptime and your bottom line.

SMALL-CAPACITY SYSTEM

APPLICATION

- Fresh/frozen to final grind

MEDIUM-CAPACITY SYSTEM

APPLICATION

- Fresh/frozen to final grind

LARGE-CAPACITY SYSTEM

APPLICATION

- Fresh/frozen to final grind

WE PUT IT ALL ON THE LINE

Nothing beats the quality you get from Weiler® equipment. That's why more and more processors worldwide, large and small, are choosing completely integrated Weiler® systems to run their line. Rugged, durable construction. Easy to operate controls. Industry-leading innovations. Low-cost maintenance. World-class technical support. All to keep your operation running at peak performance.

Contact one of our application engineers today to discuss our proprietary Optiline™ System Design and learn exactly what equipment will optimize your production line for maximum efficiencies.
